

STATE OF NEW YORK
EXECUTIVE CHAMBER
ALBANY 12224

ANDREW M. CUOMO
GOVERNOR

**REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
MAJOR DISASTER**

November 26, 2019

The Honorable Donald Trump
President of the United States
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Through: Mr. Thomas Von Essen
Regional Administrator
Federal Emergency Management Agency, Region II
1 WTC
New York, NY 10007

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), implemented by 44 CFR § 206.36, I request that you declare a major disaster for the State of New York as a result of the severe storms, flooding and straight-line winds which began on October 31, 2019 and continued through November 1, 2019.

This event produced heavy rains and damaging winds that caused widespread flooding, power outages, road closures and major damage to homes and other residential buildings, businesses, and public infrastructure. The storm produced flash floods with rapidly rising and swiftly moving water and tragically one man lost his life when he was swept away by the flood waters while driving in Herkimer County. At the height of the storm, State and local swift water rescue teams rescued individuals trapped in their homes. I was personally present at the rescue of a family, including a small child, in the Town of Dolgeville in Herkimer County.

On November 1, 2019, I declared a State Disaster Emergency in Cayuga, Chautauqua, Cortland, Dutchess, Erie, Essex, Hamilton, Herkimer, Jefferson, Montgomery, Oneida, Saratoga, Warren and contiguous counties. Fourteen local jurisdictions also declared states of emergency within Essex, Hamilton and Herkimer counties. Boil Water Notices were issued in Herkimer, Hamilton and Warren counties due to flood water inundation of public and private water systems.

PERFORMANCE ★ INTEGRITY ★ PRIDE

According to the National Weather Service (NWS), a strong low-pressure system moved through New York causing anomalous warmth and moisture in the eastern part of the State. During the storm, portions of the southern Adirondacks and Mohawk Valley experienced 2 to 5 inches of heavy rains with higher localized amounts (including 7 inches in the Village of Speculator). Following the cold front, strong gusty westerly winds developed and resulted in wind damage in both western and eastern New York. Flooding reached record levels on the West Canada Creek at the Hinckley Dam and the Kast Bridge, Sacandaga River at Hope and Mohawk River at Little Falls. NWS Albany recorded at least 26 reports of flooding and 10 reports of flash flooding.

Residents were evacuated and displaced by flood waters in communities across the Mohawk Valley, including the Village of Frankfort in Herkimer County near Moyer Creek and in Chadwicks in Oneida County near Sauquoit Creek. Forty State and local members of Task Force 2, the State's swift water rescue team, rescued 65 people and 14 animals. Over the course of the storm, more than 100 state roads were damaged, closed, or otherwise impassable at the peak of the incident from floodwaters that overtopped roads, bridges and culverts. Damage was caused by several weather-related factors ranging from erosion of roadway shoulders and damage to bridges, to complete destruction of culverts and roadways. Utility crews also had to restore power to more than 650,000 electric customers affected by the heavy rain, strong winds and gusts that impacted the state.

The American Red Cross (ARC) established shelters at the Frankfort Schuyler Central High School in Herkimer County and First Presbyterian Church and Whitesboro Fire Station in Oneida County. The population in these three shelters peaked at 52 clients, who were provided 65 comfort kits, cots, blankets and food. The Salvation Army supported the provision of 7,135 meals, 6,574 snacks and 12,267 drinks and the ARC and Salvation Army distributed 1,218 cleanup kits, referred 1,507 residents to mental health services and 129 to health services and assessed 900 homes for damage. Four Multi-Agency Resource Centers (MARCs) were opened in Oneida and Herkimer counties, which provided mental health services, financial assistance and clean up kits to 204 disaster survivors. Relief efforts, including disaster clean-up and debris removal, continue to be coordinated through the New York Voluntary Organizations Active in Disaster, Herkimer-Oneida Organizations Active in Disaster, and Adirondack Community Organizations Active in Disaster in collaboration with United Methodist Committee on Relief, Team Rubicon, the Southern Baptist Convention Disaster Relief, Catholic Charities, United Way, and 211.

Significant State and local resources have or will be employed to alleviate the conditions of this disaster, including the following:

- The State Emergency Operations Center (EOC) was activated in Albany to monitor and respond to the event.
- The Office of Fire Prevention and Control activated the State Fire Operations Center and deployed its swift water rescue team, Task Force 2.
- Regional Operations Centers were opened in Herkimer and Oneida Counties.

- Municipal EOCs were activated in the City of Buffalo, Erie County, Herkimer County, and Steuben County.
- The Division of Homeland Security and Emergency Services (DHSES) deployed communication vehicles and support trucks, emergency signs, dumpsters, excavators, MRE's, water, water tankers, water buffalos, light towers, chainsaws, pumps, hoses, fuel, generators and sandbag pallets to Erie, Hamilton, Herkimer, Oneida, Oswego, and Washington counties.
- The Department of Transportation (DOT) and the New York Power Authority supported the transportation of DHSES resources.
- DOT deployed 17 damage assessment teams and 12 bridge assessment teams as well as pumps, generators, fuel, chainsaws, and safety equipment.
- The Department of Environmental Conservation (DEC) Forest Rangers were deployed to clear trees on access roads to the Blue Mountain communication towers in support of re-establishing communications in Essex and Hamilton counties. DEC supplied airboats, a chainsaw team and excavators to Essex, Hamilton and Herkimer counties. DEC also assisted local governments with the inspection of dams to determine whether they had been compromised by the storm.
- The Division of Military and Naval Affairs (DMNA) deployed 200 members of the National Guard to assist localities with response and clean-up operations. DMNA resources included Humvees, strike teams, bobcats, dump trucks and front-end loaders.
- The Division of State Police deployed troopers, airboats and a zodiac to Herkimer County.
- The State Thruway Authority provided stone fill and dump trucks to Herkimer and Oneida counties.
- The State EOC, through the activation of ESF #6, opened nine Disaster Assistance Service Centers (DASCs) in Hamilton, Herkimer and Oneida counties, which served over 300 disaster survivors.

The negative impact of the flash flooding and strong winds is compounded by the fact that over the last several years, New York State has experienced several major flooding and weather events. Throughout this past summer and for the second time in three years, historic high-water levels in Lake Ontario brought flooding to eight counties, of which recovery is ongoing as water levels remain well above their seasonal averages. The Lake Ontario flooding in 2017 was of such severity a federal major disaster declaration was granted. In 2018, New York was impacted by three significant Nor'easters in March and severe storms in May that generated tornadoes. State and local governments responded to and managed these events with State and local resources. In August 2018, severe storms and flooding occurred in several counties in the Finger Lakes and Southern Tier regions resulting in a federal major disaster declaration. The response and recovery efforts undertaken by State and local governments during these events have severely strained State and local governments' ability to recover from this most recent incident.

Many residents in Essex, Hamilton, Herkimer, and Oneida counties that were affected by this storm have experienced repetitive community and residential losses from flooding in declared disasters in 2013 and 2014. In addition, there have been weather events that produced enough significant damage to receive Small Business Administration disaster declarations for residential and business damages. In the past five years, Essex, Herkimer and Oneida counties have been designated twice in SBA declarations.

Nearly 400 homes were affected by the flooding and sustained high winds that accompanied this storm. Several homes were destroyed, including 18 in Herkimer County which has the highest level of low-income residents (66%) of the four counties evaluated. Over a third of the homes that were assessed sustained major damage. The HUD fair market rent for these four counties ranges between \$790-\$863 a month for a two-bedroom apartment. The calculated estimate for Federal assistance of \$5.4 million is substantial for these communities as they attempt to return to normalcy.

The Total Taxable Revenue for New York is \$1.655 trillion according to the latest U.S. Department of Treasury figures. This measure is skewed significantly by the financial industry in New York City and does not consider the economic conditions of the specific counties that are being impacted by a disaster. New York is one of the most demographically diverse states in the country, containing the largest metropolitan area in the nation as well as numerous rural communities within its borders. When considering the Real Gross Domestic Product rankings of the counties where residences were most impacted by the October 31st storm, Hamilton County is ranked last (out of 62) in the State while Essex and Herkimer are ranked 54th and 52nd respectively. All four counties suffered declines in their Real Gross Domestic Product from the previous year and are all ranked in the bottom third of counties in New York State.

<i>Percentage of the population:</i>	<i>For whom poverty status is determined</i>	<i>Already receiving governmental assistance- NYS 2019 (recipients)</i>	<i>Pre-disaster unemployment rate</i>	<i>65 years and older</i>	<i>18 years and younger</i>	<i>With a disability</i>	<i>Who speak a language other than English</i>

National Average	11.8%	11.5%	3.3%	16.0%	22.4%	8.7%	21.3%
State Average	13.6%	13.2%	3.9%	16.4%	20.8%	7.5%	30.6%
Essex County	10.6%	8.1%	3.8%	23.4%	16.3%	12.3%	5.9%
Hamilton County	9.8%	6.0%	3.7%	31.3%	12.9%	8.4%	5.6%
Herkimer County	14.3%	13.3%	4.1%	20.7%	20.6%	12.2%	4.8%
Oneida County	16.1%	16.2%	3.9%	18.8%	21.2%	10.7%	11.9%

Several businesses were impacted by this disaster, including the Adirondack Scenic Railway Company which has reported damage sustained during the flooding. The Small Business Administration survey conducted during the Individual Assistance Joint Preliminary Damage Assessment (PDA) in the four counties identified 59 business or non-profits that sustained damage, including 38 with major damage.

At my direction, DHSES worked with the affected communities to assess the damage caused by this storm. Following those assessments, I further directed DHSES to request technical assistance from FEMA Region II on November 9, 2019 in the form of a joint PDA for Public Assistance and Individual Assistance. The joint PDA for Public Assistance includes 19 counties and specifies the extensive impacts of the damages, which is estimated at over \$33 million Statewide. Eighteen counties have met or exceeded their per capita threshold and the Statewide threshold has been exceeded. While Clinton County originally met its threshold, insurance coverage for eligible damage reduced damage estimates, which are now under the threshold. The joint PDA for Individual Assistance includes estimates for Housing Assistance and Other Needs Assistance in four counties. Both FEMA-State Teams' current consensus PDA data is attached. DHSES continues to evaluate damage in other counties related to the storm and additional requests may follow.

I have determined that this incident is of such severity that the response and recovery is beyond the State's and local governments' capability and Federal Assistance is necessary. I am requesting:

- Public Assistance (PA) for categories A through G for the counties of Chautauqua, Chenango, Cortland, Erie, Essex, Fulton, Hamilton, Herkimer, Jefferson, Lewis, Madison, Montgomery, Oneida, Oswego, Otsego, Saratoga, Tioga, and Warren.
- Individual Assistance (IA) for Individuals and Households Program (IHP), Disaster Case Management (DCM), Crisis Counseling, Disaster Unemployment and Disaster Legal Service for the counties of Essex, Hamilton, Herkimer and Oneida.
- Specific Assistance from FEMA to implement the Hazard Mitigation provisions of the Public Law 93-288 statewide.

I certify that for this major disaster, the State and local governments will assume all applicable non-Federal share of costs required by the Stafford Act.

I have designated Patrick A. Murphy, Commissioner of the New York State Division of Homeland Security and Emergency Services, as the State Coordinating Officer for this request. He will work with FEMA on damage assessments and provide further information or justification on my behalf. He can be reached at 518-242-5000, if there are any questions.

Sincerely,

ANDREW M. CUOMO

ENCLOSURE D TO MAJOR DISASTER REQUEST

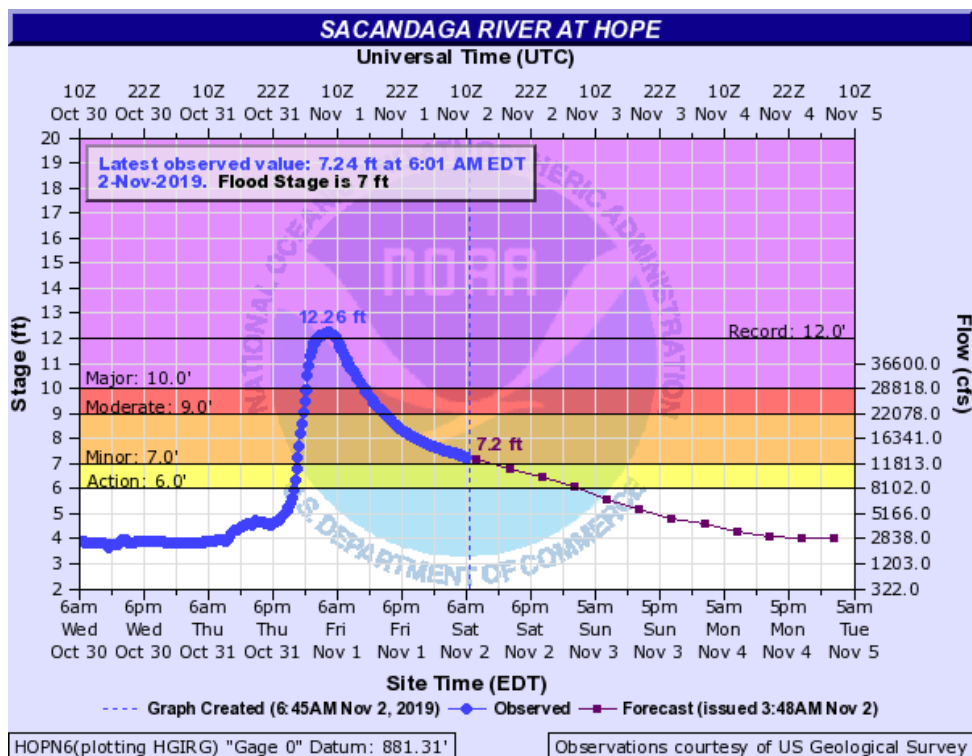

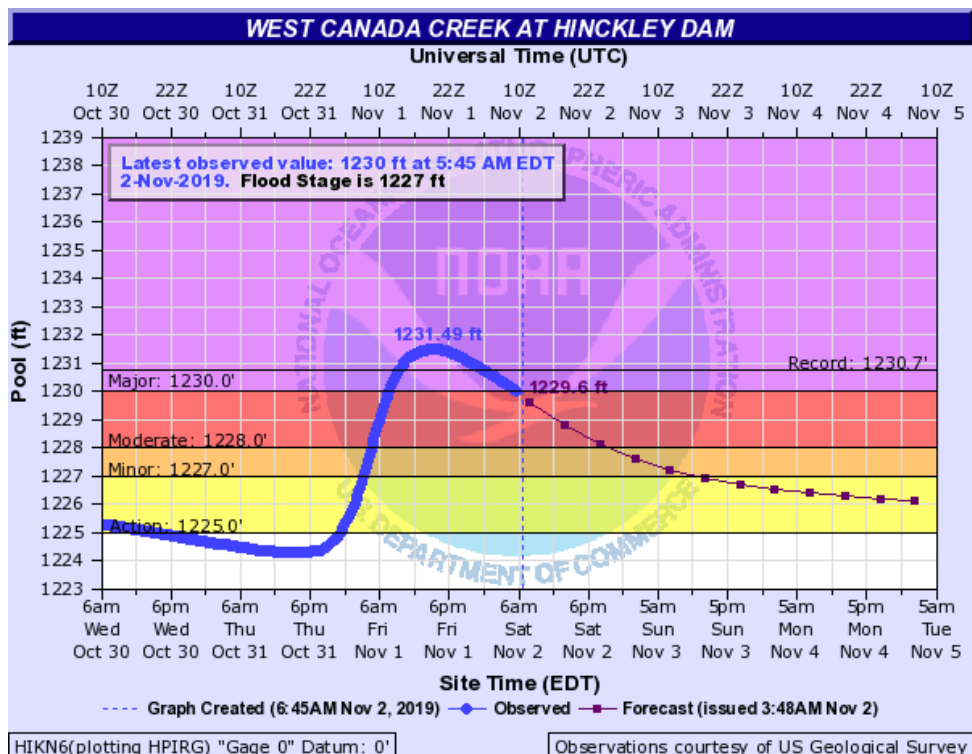

The below statement is from the National Weather Service Albany, New York:

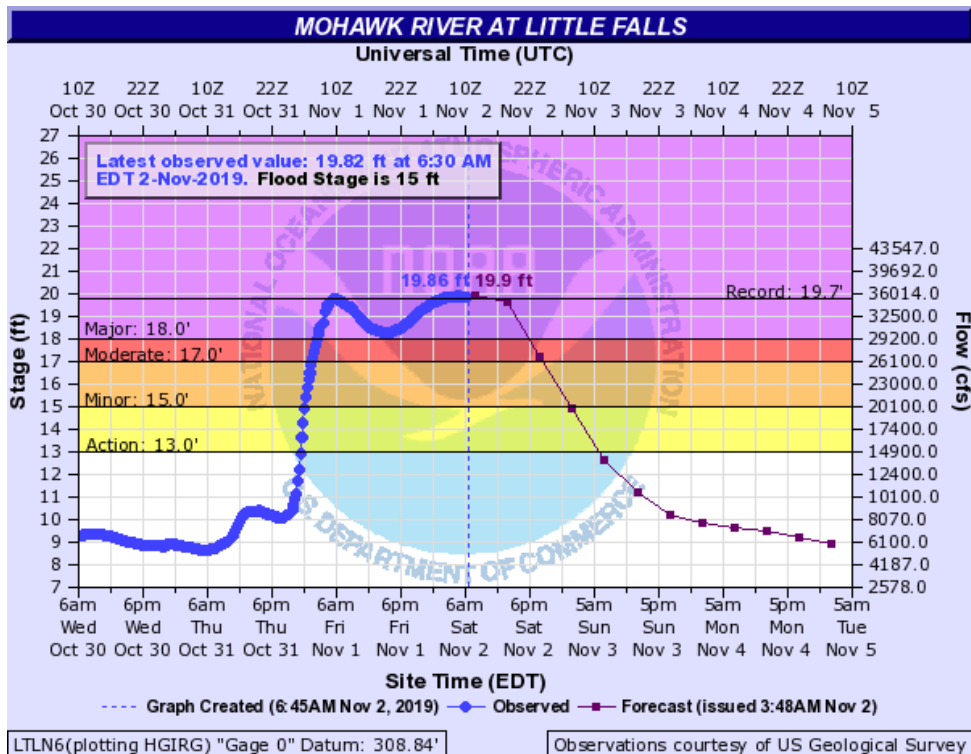

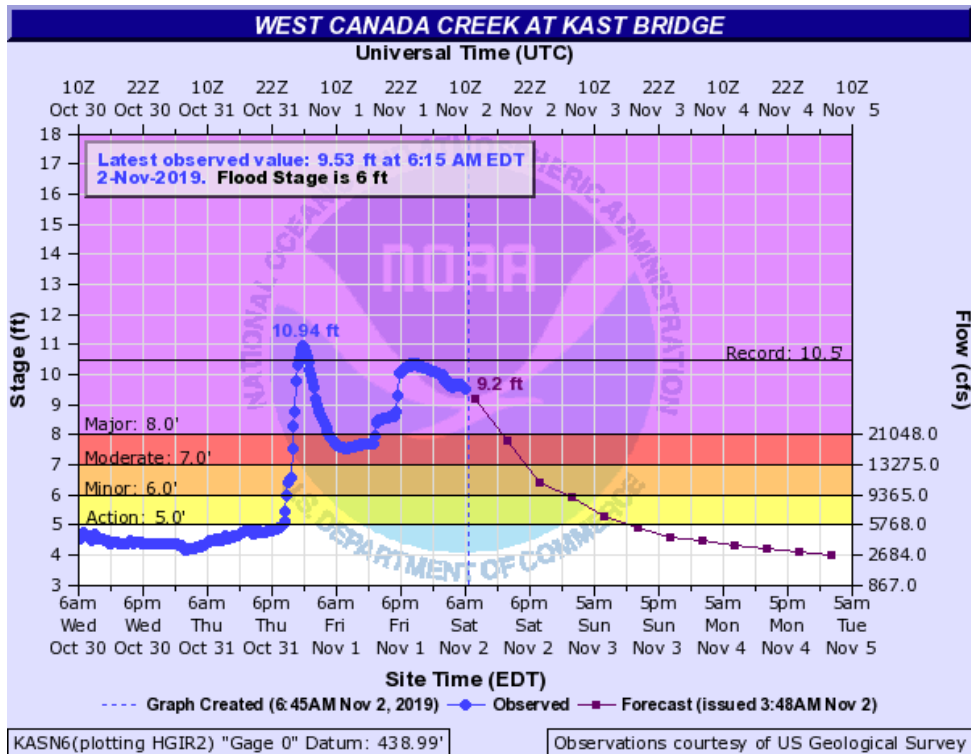

A strengthening low-pressure system moving from Ohio to Lake Ontario drew anomalous warmth and moisture northward on Halloween, with temperatures surging into the 60s and 70s over eastern New York and western New England. Showers across the southern Adirondacks and Mohawk Valley became steadier and heavier during the evening ahead of a strong cold front as the low continued to strengthen. Strong winds aloft mixed down to the surface as an intense line of showers developed along the front, resulting in sporadic wind damage over eastern New York and western New England. A large swath of rainfall totaling 2-5 inches occurred over the Mohawk Valley and southern Adirondacks, resulting in reports of flash flooding. The runoff caused rapid rises on area creeks and streams, with four river gauges reaching record levels. The flooding was extensive over portions of the area, damaging numerous roads and structures and resulting in water rescues. There was one fatality as a result of the flooding.

Behind the cold front, strong gusty westerly winds developed and persisted into the afternoon November 1st. The winds gusted as high as 63 mph, resulting in numerous reports of downed trees and thousands of power outages.

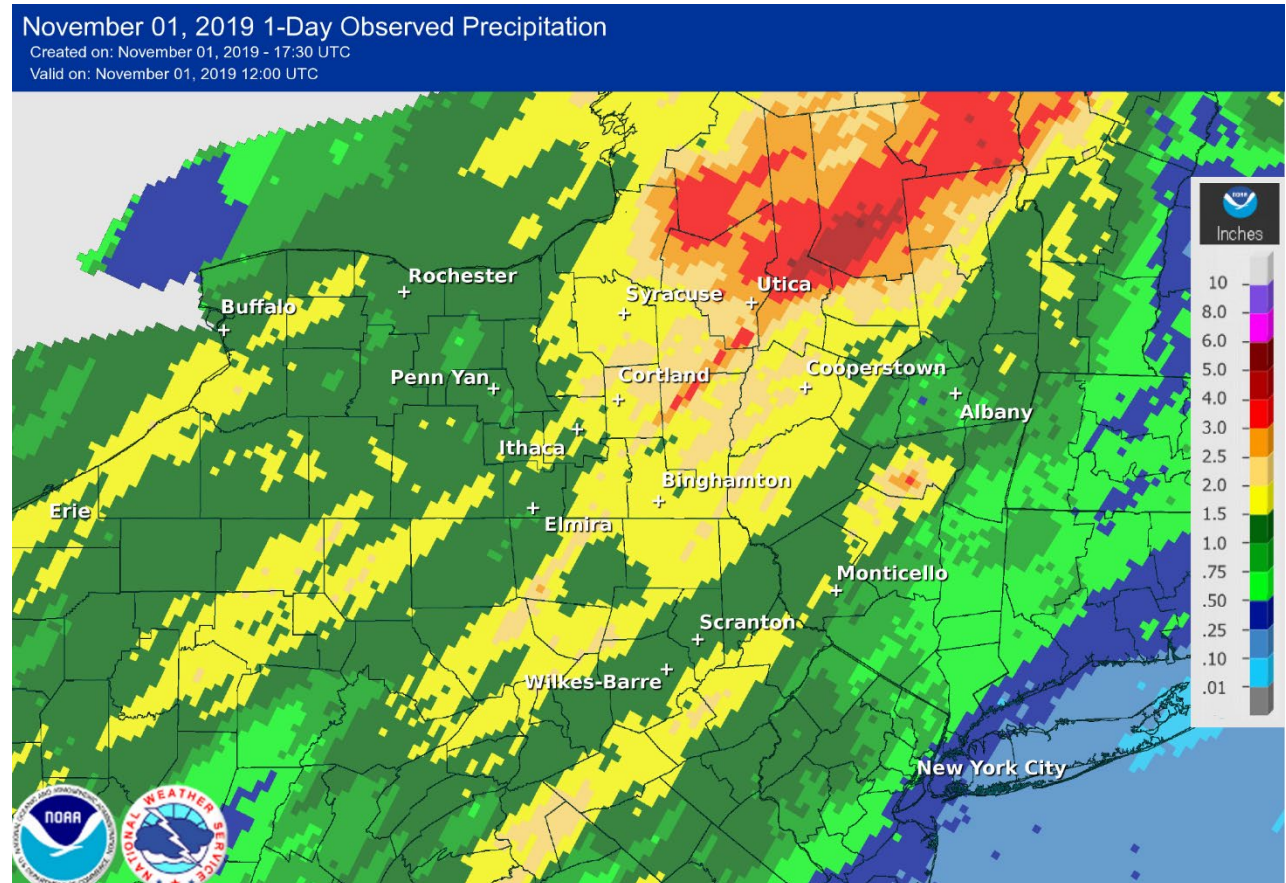

Flooding charts of locations where records were exceeded.

The below statement is from the National Weather Service Binghamton, New York:

A strong low-pressure system moved through New York and Pennsylvania on October 31 through November 1 2019. Widespread showers and some thunderstorms accompanied the storm system. Rain was heavy at times as a strong cold front blasted through the area. Then a period of very strong winds occurred on November 1 across parts of the area.

DEPARTMENT OF HOMELAND SECURITY
Federal Emergency Management Agency
REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
MAJOR DISASTER OR EMERGENCY

OMB Control Number 1660-0009
Expires 09/30/2019

1. Request Date Nov 26, 2019

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

<p>2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.</p> <p>New York</p>	<p>2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s). <u>19,378,102</u></p>
